EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan W. Hallman on 08/12/05.

The application has been amended as follows:

IN THE CLAIMS:

In claim 1, line 9, replace "representing" with --encoded to form--.

In claim 36, line 1, replace "information field" with --address information--.

2. The following is an examiner's statement of reasons for allowance: claims 1-10 and 36 are allowed over the prior art of record because the prior art of record, considered in combination or individually, fails to suggest or fairly teach a spiral groove in an optical disk including: a first plurality of sinusoidal marks located at zero crossings of a wobble and each sinusoidal mark is formed from a sinusoidal deviation of a groove; and wherein, a presence of one of the first plurality of sinusoidal marks at one of the zero crossings represents an active bit and the absence of one of the plurality of sinusoidal marks at one of the zero crossings represent an inactive bit, and a plurality of the active bits and the inactive bits encoded to form an information field including at least address information, as particularly recited in claim 1. Claims 2-10 and 36 are allowed with their respective parent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
